

Office of Institutional Research - College Report

Rosen College of Hospitality Management - Foodservice and Lodging Mgmt

Program Review

Institutional Research is asked to provide data for programs under review each reporting cycle. Common definitions are applied to all programs under review, resulting in consistent reporting.

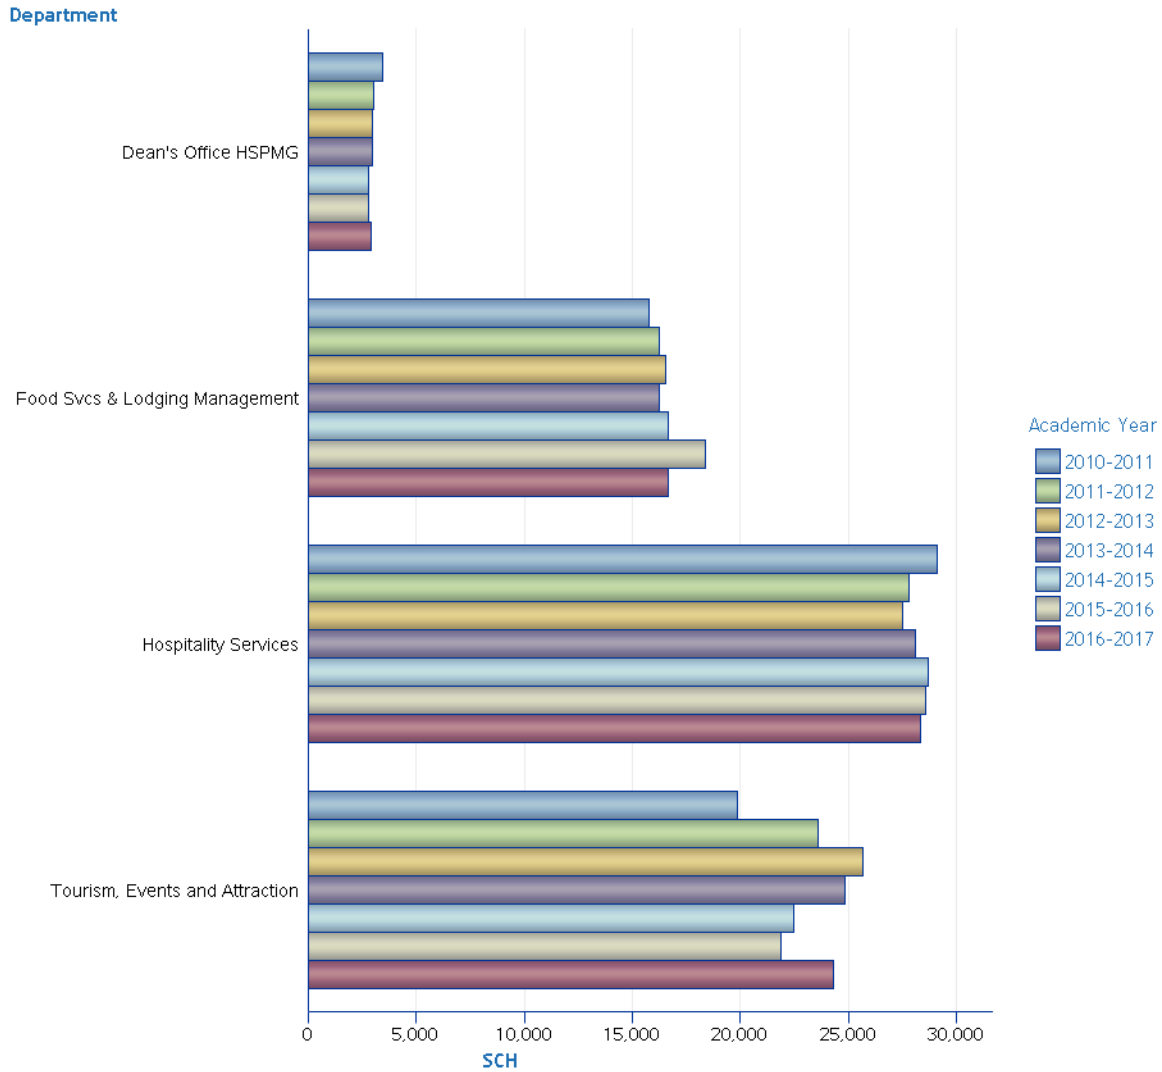

In addition to graphical presentation, many measures include numeric counts of data. The user is cautioned to consider the number of records used in an average. In some cases, a low 'N' may generate results which may be misinterpreted.
