Data Collection & Release Procedures

Postsecondary institutions submit IPEDS data annually through 12 interrelated survey components. Data in a collection year (cycle) are reported in 3 periods, and the data for each period are distributed in 3 corresponding releases.

What data are collected in each period?
The table below shows the survey components administered during each of the 3 periods in a collection year.1 As noted, some data are collected for the prior year. This allows institutions time to prepare the most current and complete data prior to reporting to IPEDS. For example, Student Financial Aid data are reported in December 2016 through March 2017 for aid awarded during fall 2015 through summer 2016.

Where can I get data?
IPEDS data are publicly available and may be used without cost, though a citation is recommended.2 They can be accessed via https://nces.ed.gov/ipeds/use-the-data.

What if I need help using data?
The IPEDS Data Tools Help Desk provides the following services to those interested in using the data:

- Assistance with accessing and retrieving IPEDS data for research and analysis;
- Answers about specific metrics collected; and
- Guidance for locating and using IPEDS data files.

What are the data review and validation processes?

For each collection period, IPEDS distributes the data in 3 releases, with each release going through a different review and validation process.

**Release 1**

**Preliminary Data**

Upon completion of a reporting period (Fall, Winter, or Spring), the data go through an initial review and validation process.

- IPEDS staff review data submissions and may follow up with institutions as part of the initial quality control process.
- If an institution does not respond to a survey component or an item, the data are left blank (i.e., data are unimputed).
- This initial review and validation process—along with the accompanying publication review—takes approximately 6 months.

**Release 2**

**Provisional Data**

After the Preliminary release, IPEDS staff completes the full quality control procedures.

- Additional follow-up with institutions may occur. Revisions to the Preliminary data would be minimal.
- Missing data due to nonresponse to entire survey components or items are imputed.*
- This round of review, validation, and imputation—along with the accompanying publication review—takes approximately 3 months.

**Release 3**

**Final (Revised) Data**

In the following collection year, institutions are given an opportunity to revise their data if they believe it was inaccurately reported in the prior year.

- The percentage of institutions that revise data varies by survey component but usually ranges between 1 and 7 percent.
- Provisional data are updated with the revisions.
- This process takes approximately 12 months after the Provisional release.

When can I expect the data release?

The following table highlights approximate times for data releases. Delays in the schedule are possible due to various layers of review and revision.

* Review of Preliminary First Look reports may be surpassed by review of Provisional First Look reports. At that point, NCES will only release the Provisional (skipping Preliminary) data and accompanying First Look. Additionally, Preliminary data will only be available prior to the Provisional release. Once Provisional data has been released, Preliminary data will be replaced with the Provisional data.

**IPEDS First Look Reports**

IPEDS First Look reports, which accompany Preliminary and Provisional data releases, provide summary tables and citation information for the data. These can be found at [https://nces.ed.gov/pubsearch/getpubcats.asp?sid=010](https://nces.ed.gov/pubsearch/getpubcats.asp?sid=010) under “Shorter Publications”.

For example, the Fall 2015 Preliminary data had an accompanying First Look report titled *Postsecondary Institutions and Price of Attendance in 2015–16; Degrees and Other Awards Conferred: 2014–15; and 12-Month Enrollment: 2014–15: First Look (Preliminary Data)*.
